- Require each legislatively mandated board/committee/study section have at least 1 parent representative with lived experience

Initiated: House Committee on Human Services actively using this recommendation to design new committees and advisory bodies

Rec. 2: Commit To Ensuring That Children And Families Are In All Policies

- Similar to the “health in all policies” initiative, this recommendation is based on incorporating child development and family well-being considerations into all decision-making across sectors and policy areas.
- At the state-agency and community-based partners level, and at the policy-making level, review programs, policies and legislation to ensure that revisions and requirements consider the impact and consequences to child development and family well-being.

Initiated: BBF testimony to the Senate Committee on Health and Welfare, House Committee on Human Services, the House and Senate Committees on Appropriations

D. RECOGNIZE VERMONT’S EARLY CARE & EDUCATION SYSTEM & WORKFORCE AS ESSENTIAL

Rec. 1: Fund Education Costs, Compensation For Early Childhood Education Workforce, Including Scholarships, Loan Repayment, And Wage Supplementation

- Sufficiently fund and expand scholarship programs for early educators and maintain this revenue annually.
- Establish a loan repayment program for early educators.
- Establish a wage supplement program to progress toward adequate compensation for early educators.
- Prioritize workforce development and hazard pay for this sector.

Significant progress through H171 and FY22 budget

Rec. 2: Continue Investment In Redesigning The State’s Child Care Financial Assistance Program (CCFAP) By Making Progress In Alignment With Year 3 Of The State’s 5-Year Plan, Including

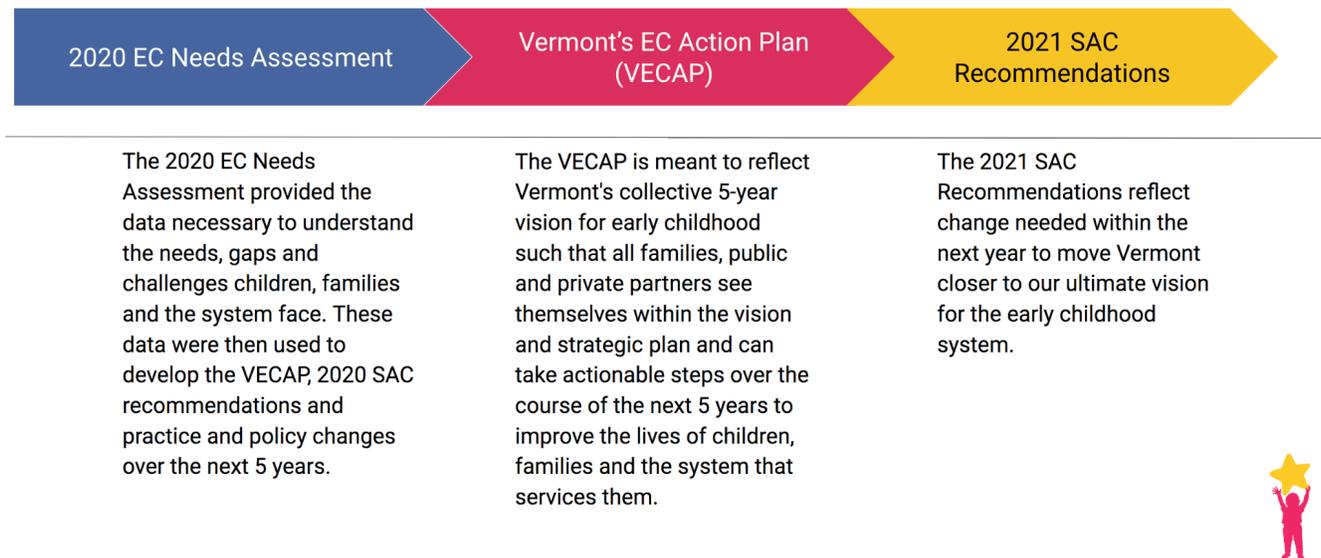

- Increase the CCFAP rate paid to early care and education providers so those reimbursement rates closely reflect the true cost of high-quality care thereby reducing the burden on early care and education programs to subsidize the system through low wages and other cost-saving efforts.
- Fully support needed investments in the technology system(s), staff and resources required to implement the redesigned CCFAP structure and providing an accessible platform for families, educators, and administrators.

Significant progress through H171 and FY22 budget

BBF Policy Recommendation Development Process

Policy Recommendation Process Example

How does this process work? Here's an example about the issue priority on **Child Care Workforce Development**

- 6 out of 12 regions identified child care workforce development as one of the top two priorities during the COVID-19 pandemic
- The ELD Committee developed a series of policy recommendations:
Title: Recognizing Vermont's Early Care and Education System and Workforce as Essential
 - Rec 1: Fund education costs, compensation for early childhood education workforce, including scholarships, loan repayment, and wage supplementation
 - Rec 2: Continue investment in redesigning the state's child care financial assistance program (CCFAP) by making progress in alignment with year 3 of the state's 5-year plan
- The recommendations were reflective of strategies identified in Vermont's Early Childhood Action Plan
 - Goal 1, Objective 1.3, Strategy 2 (pg. 13): *Ensure the EC workforce has the capacity to meet the needs of each and every child across stessings*
 - Goal 3 (pg. 18), Objective 3.3, Strategy 1 (pg. 21): *Promote and increase equitable access to high-quality inclusive early care, education and afterschool programs.*
 - Goal 3, Objective 3.5, Strategy 1: *Establish an infrastructure that recruits, retains and advances early childhood and afterschool professionals as an essential workforce.*
Strategy 2: *Promote strategies to increase early childhood workforce compensation and benefits without shifting costs to families.*
- The State Advisory Council Adopted these recommendations, they were printed in the 2020 How are Vermont's Young children and families report, and presented at the State of Vermont's Young Children and Families webinar
- The recommendations were also presented to the House Committee on Human Services and the Senate Committee on Health and Welfare directly by the BBF Executive Director.
- The recommendations were also used by our advocacy partners at Let's Grow Kids and others to develop and affirm H.171 and budget priorities

Outcome: Passage of H.171 including investments in child care workforce development
