

PUBLIC EDUCATION RESOLUTION

The undersigned residents of Mills County promote and continue to support Iowa's public schools, which are the economic engines of our communities. We encourage the Legislature to continue to promote and fully invest in Iowa's PUBLIC schools. We strongly oppose and encourage our Representative and Senator to vote NO on any bill similar to that passed in the Iowa Senate on March 30, 2022 as SF 2369 which comes before the Iowa Legislature. Such a bill might establish a "student first scholarship program," educational savings accounts or vouchers, which would divert funding from public schools to support private school tuition.

The public's investment, tax dollars, should be used to support public community schools, which are open to all students regardless of race, religion, gender, socio-economic status and disability, because public funds require public accountability and transparency not found in or required of private schools.

A citizen campaign for high quality, world class public schools for all Iowa students.

PUBLIC EDUCATION RESOLUTION

The undersigned residents of Mills County promote and continue to support Iowa's public schools, which are the economic engines of our communities. We encourage the Legislature to continue to promote and fully invest in Iowa's PUBLIC schools. We strongly oppose and encourage our Representative and Senator to vote NO on any bill similar to that passed in the Iowa Senate on March 30, 2022 as SF 2369 which comes before the Iowa Legislature. Such a bill might establish a "student first scholarship program," educational savings accounts or vouchers, which would divert funding from public schools to support private school tuition.

The public's investment, tax dollars, should be used to support public community schools, which are open to all students regardless of race, religion, gender, socio-economic status and disability, because public funds require public accountability and transparency not found in or required of private schools.
