

Fish Advisory

Bradford Island Superfund Cleanup Site from Bonneville Dam Upstream to Ruckel Creek

Resident fish caught between Bonneville Dam and Ruckel Creek, in Oregon, and from the North Bonneville (Ft. Raines) Treaty Fishing Access Site, in Washington, **should not** be consumed due to high levels of contaminants, including mercury and polychlorinated biphenyls (PCBs). Health effects of eating contaminated fish can include lifelong learning problems and cancer. **Migratory fish** are safe to eat.

Safe to Eat*
