

Who We Are

Since 1948, Journey Mental Health Center has offered a path to health, wellness, and recovery.

As the largest non-profit behavioral health provider in Dane County, Journey provides services to those who are living with mental health and substance use challenges.

At Journey, our consumers create their path to recovery while building healthy, meaningful, and productive lives.

Our Mission

Empower people by providing connections, support, and services that meet diverse needs and strengthen the communities we serve.
