SELECTION CRITERIA

Proposals will be reviewed by the Conference Planning Committee and evaluated with the following criteria foremost:

- Connection/Applicability to the Conference themes
- Originality and quality of the proposed session
- Diversity of Presenters
- Realistic allocation of time, including for discussion and Q & A
- Timeliness of the subject matter
- Clearly stated purpose and objectives
- Adaptability of ideas to a variety of settings

Session proposals should NOT be a “show and tell” but rather a focus on challenges, trends, and lessons learned, with ample time for discussion. Interactive presentations are encouraged, and traditional lecture-only presentations are strongly discouraged.

The Conference Planning Committee will have to choose among many proposals, some of which may be similar, and will seek balance among topics and areas of importance to the attendees. Proposals of equal merit cannot in all instances be selected when the result would be an imbalance in the conference’s overall coverage of topics, audiences, and regions. Priority will be assigned to proposals that demonstrate new ideas or methods or indicate a high level of knowledge and unique treatment of the topic.

Selected presenters or panelists (3 panelists per session maximum) will receive complimentary full conference registration.
